Overview:

The document briefly describes technical requirement of NAQEL Express custom shipping option and walk you through the process of deploying the custom plugin to the Magento Store. Naqel Express API Naqel Express is a delivery platform connecting local and international retailers to eager customers in the thriving Saudi economy. Naqel Express makes selling the products online quick and easy, giving the full control of e-commerce operation. The Magento plugin will utilize and communicate with the Naqel Express API to place the order, create the way bill, and to track the way bill.

Magento Extension Installation:

Follow the below steps to install the Magento Extension

1. Connect to server via SSH.
2. Download the Naqel Magento extension provided by IT team.
3. After successful SSH login, using the command line (shell), open the Magento root directory where Magento 2.x is installed.
4. Upload Magento Naqel Extension to your Magento 2.x installation root directory. Then navigate to app/code.

5. Create new folder Naqel
6. Content of the unzipped extension should be moved to the Naqel folder.
7. Go back to Magento root folder.
8. Execute the following commands:

```
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento cache:clean
php bin/magento cache:flush
```

9. Login to admin panel and you should see Naqel Extension Page.

Magento Extension Configuration:

In the admin portal, Navigate to Stores -> Configuration -> Sales -> Delivery methods Enable the Naqel Shipping as Yes and enter all required details as below • For Demo API endpoint address (URL)

<https://infotrack.naqelexpress.com/NaqelAPIServices/NaqelAPIDemo/9.0/XMLShippingService.asmx?wsdl>

- Note: it should end with?wsdl to get SOAP client working correctly.
- Note: above is testing link after complete testing ask IT team to provide LiveURL

Shipping City Configuration:

All deliverable cities should be imported manually or with the bulk upload from Naqel Shipping -> Upload bulk city. On Customer checkout page, in shipping address it is required to enter “city” field with city matching one of the cities in Naqel module. If city is not valid then when admin user is trying to create waybill he will get error for invalid City Code.
