## **Overview:**

The document briefly describes technical requirement of NAQEL Express custom shipping option and walk you through the process of deploying the custom plugin to the WordPress WooCommerce Store. WooCommerce is an ECommerce software that makes it easy for selling products and services online. Over the years, it has become the most popular ECommerce platform in the world used by millions of small and large businesses (online stores).

#### **Naqel Express API:**

Naqel Express is a delivery platform connecting local and international retailers to eager customers in the thriving Saudi economy. Naqel Express makes selling the products online quick and easy, giving the full control of e-commerce operation.

The WordPress plugin will utilize and communicate with the Naqel Express API to place the order, create the way bill, and to track the way bill

#### **WordPress Plugin Installation:**

Follow the below steps to install the WordPress Plugin Next, you need to go to WordPress admin area and visit Plugins » Add New page.

1. First, Download the Naqel Wordpress plugin provided by Naqel IT team (which will be a zip file).

2. Next, you need to go to WordPress admin portal and visit Plugins » Add New page. After that, click on the 'Upload Plugin' button on top of the page.

#### **Shipping City Configuration:**

All deliverable cities should be imported manually or with the bulk upload from Naqel Shipping -> Upload bulk city.

On Customer checkout page, in shipping address it is required to enter "city" field with city matching one of the cities in Naqel module. If city is not valid then when admin user is trying to create waybill he will get error for invalid City Code.
